ASA USA S1805 Dine + Design Expo

Memo Mileu

Sign it yourself. Make it personal. Leave a greeting. Mark what's in it. Memo is an innovative and stylish line of kitchen accessories that let you make it personal and fun. Simple and unpretentious, white ceramic with a black chalkboard. Make your mark! Then simply wash and wipe it off. The line includes mugs, jars, bowls, containers and flower pots.

A Table Fond

Beautiful, crisp clean white bone china. Perfectly square. So simple, yet so elegant with brilliance, transparency, and exceptional strength. The first choice of elegant dining for everyday use. The line includes plates, serving bowls and platters.

Light/One Fond

A timeless distillation of form and innovated use of translucent porcelain. Serveware, part of everyday life, but transformed into an artistically harmonious interplay of form and function. Porcelain pushed to its limits of pure whiteness and translucency. The line includes serving bowls and platters, glasses and carafe.

250o C plus Poletto

Designed by the chef, Comelia Poletto for her namesake restaurant in Hamburg, Germany, 250° C plus Poletto is a complete oven to table collection. The collection is designed for maximum flexibility of use with all plates serving as lids and easily stackable. Includes both rectangular and oval shapes. Awarded the White Star Award in 2009 by the prestigious German home magazine, Schoner Wohnen. The line includes, plates/lids, soufflé and serving bowls, oven/serveware from appetizer to casserole size.

BEEM Blitz-Elektro-Erzeugnisse Manufaktur –GmbH L12125 Wired + Well Expo

Samovar Odessa Electric Tea Cooker

The Odessa Electric Tea Cooker has a 3.0L water container and a 1.0L tea pot. It is made of high-grade stainless steel and features heat insulated shapely handles. The Odessa has two heating elements with 800 watts and 700 watts. Heating element is concealed below the base and controlled by an individually adjustable and energy saving thermostat. Protects against overheating and boiling dry with automatic shut-off. Boiling, hot or warm water is always available to dilute tea, prepare instant coffee or other beverages. The Odessa Electric Tea Cooker is available in two styles: Odessa I with a gold finish and Odessa III with a stainless steel finish. Comes with a 2-year guarantee.

Samovar Rebecca Electric Tea Cooker

The Rebecca Electric Tea Cooker has a 5.0L water container and a 3.0L teapot made of high-grade stainless steel. It has a concealed heating element below the base and an individually adjustable, energy saving thermostat. The Tea Cooker protects against overheating and boiling dry with an automatic shut-off. Boiling, hot or warm water is always available to dilute tea, prepare instant coffee or other soluble beverages. Different sorts of tea can be mixed in the tea pot, and the strength of the tea can be determined individually from cup to cup. Comes in two styles: Rebecca I with a gold finish and Rebecca III with a stainless steel finish. Has a 2-year guarantee.

Samovar Royal Electric Tea Cooker

Royal Electric Tea Cooker is made of high-grade stainless steel with a concealed heating element below the base. It has a 3.0L water container and a 1.0L tea pot. Tea infuses permanently at the optimum temperature and strength of tea can be determined individually from cup to cup. The tea cooker protects against overheating, has boil-dry protection with automatic shut-off and an individually adjustable and energy saving thermostat. It comes in two different styles: Royal I with a gold-plated finish and Royal II with a stainless steel finish.

The Connected Frame LLC S4231

Dine + Design Expo

The Brilliant Frame

The Brilliant Frame is an inexpensive, front-loading picture frame that holds up to 20 printed images. It utilizes Velcro® Brand technology allowing it to be attached to virtually any surface without nails. The image holder is manufactured out of UV-protected Polycarbonate and is removable from the front of the frame, allowing you to change your pictures and matting without having to remove the frame from the wall. The Brilliant Frame also includes integrated desk stands for both Landscape and Portrait presentation. Frame comes in unlimited colors, and is available in 4"x6", 5"x7" and 8"x10" sizes.

Fabrikators S747

Dine + Design Expo

Skrub'a Scrubbing Gloves

These gloves are a smart, practical and stylish new concept for cleaning your fruits and vegetables—ideal for every kitchen. The friable skin of potatoes, fruits and vegetables usually gets caught in traditional cleaning sponges, which then have to be discarded or reused dirty. The alternative of using hard brushes leaves a big mess around the kitchen sink. Both approaches tend to result in accidentally scraping skin off your hands instead of the intended item as well as creating a mess. These scrubbing gloves have rough surface for cleaning, are superbly effective, consume very little space and are extremely easy to clean.

ToddlerTäble Kids Cutlery

ToddlerTäbleware is established with the ambition to create distinctive, functional and beautiful objects for small individuals. While flatware for grownups is designed to be held delicately and loosely, the ToddlerTäbleware flatware is round and chubby and fills up the palm of the hands of little ones. This makes it easier for children to control it until their motor coordination is fully developed. The bowl of the spoon is slightly smaller than a normal kid's spoon. This feature helps reduce the speed at which the toddler eats the meal. The fork is curved to make it work as a fork and spoon. Toddlers have a natural tendency to shovel and scoop, and the shape of the fork helps them do this easily. The tip of the fork also promotes a great hold, although the fork is not at all sharp. The knife is substantially shorter than ordinary kids' knives for improved control. Kids have difficulties in the early stages to make back-and-forth cutting movements, where as they can better squeeze and create a chopping effect. Without being sharp, the knife can "cut" boiled vegetables, some raw vegetables like cucumber and many fruits. It is made of food-approved ABS and TPE, is microwave and dishwasher safe and recommended for ages 6 months and older.

Lemon Friend Lemon Squeezer

Lemons are filled with healthy vitamin C, and the lemon juice adds an excellent flavor to a fried plaice or an extra oomph on the popular Italian Carpaccio. Everyone loves the taste – some prefer more, some prefer less. Therefore, it is a tradition to let customers decide the amount of lemon juice required. The result is usually sticky fingers or stains on cloth and clothing. Now the problem is solved. The lemon squeezer "Lemon Friend" is a new Danish invention, which makes it easy and simple to squeeze the juice out. The unit can also be used for oranges and limes.

Magnetic Dish Brush

Developing company Fabricators has solved the problem with the indispensable dishwashing brush, which is always found in the sink with all the bacteria. A magnetic feature ensures that the dishwashing brush – the mBrush – is included as a functional and integral part of the kitchen and thus easily accessible, efficient and practical. In this way the brush is always positioned at the selected location in the sink and drain there. Most of the households now have a dishwasher to handle the cleaning of glasses, pots and cutlery. The brush can withstand temperatures above boiling (212°F) and is made of extra durable bristles, which for general use has a significantly longer lifespan. When the bristles are resistant to such high temperatures, it means that the dishwashing brush is boiled and sterilized, so it kept fresh and clean for longer than usual. The design of the brush allows it to be accessible and to be an elegant part of the kitchen environment. The magnet on the brush is so strong that you can rotate the brush 90 degrees and place it horizontally, hidden from sight and in line with the minimalist aesthetics in a modern kitchen.

Fiduz-Design
Dine + Design Expo

S4436

Wine Dispenser

The idea for the bag in the box dispenser was born at a smaller restaurant in Le-Havre, France, in 2007. The problem to solve was how to serve and present bag in box more elegantly than the boxed-shaped design that is somehow giving the contents a negative impression before even opened. The result is not just another box but a smooth design catching the eye and at the same time adding the missing elements when handling boxed/bagged wine. The smooth round design is perfect for handling and getting the last drops out and the table stand catches any drips from hitting the table. The cold pack ensures a cooler temperature for white and rose wines.

The Fire Blanket Corporation
Dine + Design Expo

S4833

Fire's Out! Kitchen

This Fire Blanket is used to extinguish stovetop fires. It is ideal for use in your home, RV or Galley, particularly for a grease, frying or chip pan fire. It is an alternative way of putting out stovetop fires. The blanket can be easily opened and deployed over the stove. No training is required and the blanket leaves no mess on the stove afterwards. The blanket is fully certified to the American Standard ASTM and is fire resistant up to 1000°F. It is 36" x 36" and weighs 1 lb.

Gama-Go
Dine + Design Expo

S3756

The Cockblocker

The Cockblocker is a rooster-shaped bottle stopper. It is made of dishwasher-safe plastic and comes in a gift box.

Dish Brush

This dish brush is shaped like a giant toothbrush. It measures 2.5" x 14.4".

The Flipper

This guitar-shaped spatula is 50% rock, 50% roll and 100% silicone. It is dishwasher safe and available in red or black.

Sing-A-Long Tong

These metal tongs with silicone covered tips are made to look like a microphone and measure at 12" long.

Uni-Corn Holders

These corn-holders are shaped like unicorns, holding corn with their horns. They are reusable and washable and come in packs of eight.

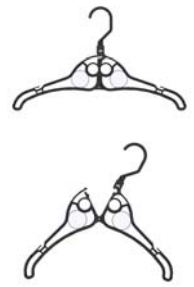

The Giving Hanger Clean + Contain Expo

N7720

The Giving Hanger—Clothes and Pants

Made and assembled in the USA, these folding hangers are stackable and hold up to 30 lbs. They come in multi colors and can be sold with custom logos. They are available in three different sizes: Baby, Regular, and XL, and have wider shoulder pads. A percentage of retail sales is donated to deserving not for profit charities/foundations. The pants hanger is the same as the clothes hanger but also has a 3/4"-wide bottom bar.

GoodByn S4069 Dine + Design Expo/GOHO

Goodbyn Lunchbox

Leave it to a mom to come up with a better way to “do lunch.” Frustrated with wasting plastic bags and drink boxes on a daily basis, Seattle mom Erin Franczyk knew she needed to come up with an eco-friendly solution to her lunchbox waste woes. On a quest for the perfect lunchbox, Erin quickly realized it didn’t exist. With that, the Goodbyn™ lunchbox by the Seattle-based company Byndoo LLC was born. The world’s first self-sealing lunchbox, the Goodbyn lunchbox does away with wasteful plastic bags and drink boxes for good. The five sealed compartments eliminate the need for extraneous packaging and ensure that your sandwich won’t taste like your banana and your chips won’t co-mingle with your cookies! And it even comes with its very own reusable 8-oz. drink bottle – which filled with a drink and ice cubes, doubles nicely as an ice pack. The lunchbox is easy for kids to carry, and is simple to open and close thanks to a finger-friendly pair of “ears.” It is also available without the ears. Appealing to every child’s inner creativity, each Goodbyn lunchbox comes with more than 275 super-cool stickers for customization, and it is available in kid-friendly colors including red-orange, blue, yellow, green and magenta. Once parents (and kids) decide it’s time for a new lunchbox, the Goodbyn lunchbox is 100% recyclable. The Goodbyn lunchbox is also manufactured completely in the United States, a signature point for Byndoo.

The Gurdle N7121 Clean + Contain Expo

The Gurdle

The Gurdle is a hands-free solution for keeping your carry-on bag on top of your rolling bag. It serves as a compression strap to control the bulge of your bag and when left on checked luggage, acts as a luggage identifier. It is constructed of 100% heavy-duty nylon webbing with plastic and metal hardware making it water repellent, durable and easy to clean. The Gurdle is compatible with all airline-approved rolling luggage and is available in six colors: black, orange, blue, green, pink and silver.

Handstand Kids S4072 Dine + Design Expo/GOHO

Handstand Kids Chinese Cookbook Kit

Packaged in a large takeout box with child-friendly chopsticks, the Chinese Cookbook kit introduces kid chefs ages 3 to 12 to delicious and healthy Chinese recipes. Recipes like Spring-a-licious Spring Rolls, Kung Pow Chicken!, and Year of the Monkey Smoothies take your little chef around the world through your own kitchen. All the utensils and ingredients are translated into Mandarin so you can speak the language of China as you cook! The recipes are leveled from 1 to 4 chopsticks so you will know the age appropriate level for your little chef. The five Handstand Kids characters. Each has diverse interests and backgrounds: Felix is a vegetarian; Izzy loves to cook for his diabetic sister; Ari uses her cooking skills to volunteer with kid’s charities; Gabby is bilingual, speaking both Spanish and English; and Marvin is an aspiring chef. The goal of the Handstand Kids Cookbook is to create a global community of children. The series not only introduces kids to recipes from around the world, but encourages them to use their new skills to get involved in their community.

Handstand Kids Mexican Cookbook Kit

Packaged in a resealable tortilla bag with a child-sized oven mitt, the Mexican Cookbook kit introduces kid chefs ages 3 to 12 to delicious and healthy Mexican recipes. Recipes like Farmer's Market Chips & Salsa, There's a Meatball in My Soup, and Cheese sandwiches into Quesadillas take your little chef around the world through your own kitchen. All the utensils and ingredients are translated into Spanish so you can speak the language of Mexico as you cook! The recipes are leveled from 1 to 4 avocados so you will know the age appropriate level for your little chef. The five Handstand Kids characters. Each has diverse interests and backgrounds: Felix is a vegetarian; Izzy loves to cook for his diabetic sister; Ari uses her cooking skills to volunteer with kid's charities; Gabby is bilingual, speaking both Spanish and English; and Marvin is an aspiring chef. The goal of the Handstand Kids Cookbook is to create a global community of children.

Handstand Kids Italian Cookbook Kit

Packaged in a pizza box with a chef's hat (that fits all-sizes), the Italian Cookbook kit introduces kid chefs ages 3 to 12 to delicious and healthy Italian recipes. Recipes like There's Bread in My Salad Panzanella, Oh My Pizza Pie, and Mamma's Spaghetti & Meatballs will take your little chef around the world through your own kitchen. All the utensils and ingredients are translated into Italian so you can speak the language of Italy as you cook! The recipes are leveled from 1 to 4 garlic cloves so you will know the age appropriate level for your little chef. The five Handstand Kids characters. Each has diverse interests and backgrounds: Felix is a vegetarian; Izzy loves to cook for his diabetic sister; Ari uses her cooking skills to volunteer with kid's charities; Gabby is bilingual, speaking both Spanish and English; and Marvin is an aspiring chef.

Handstand Kids All-Purpose Mats

These mats provide kid-chefs with a necessary kitchen tool while sticking to the Handstand Kids mantra that simultaneously introduces them to countries and languages around the world. There are four mat designs available; one illustrates a kitchen scene while the other three parallel the Italian, Mexican and Chinese cookbooks. The country-specific mats feature a map of the region and language translations of cooking utensils and foods used in the corresponding Handstand Kids Cookbook. The back side of the All-Purpose Mats introduces kid chefs to the five Handstand Kids characters. Each has diverse interests and backgrounds: Felix is a vegetarian; Izzy loves to cook for his diabetic sister; Ari uses her cooking skills to volunteer with kid's charities; Gabby is bilingual, speaking both Spanish and English; and Marvin is an aspiring chef. The goal of the Handstand Kids Cookbook is to create a global community of children. The series not only introduces kids to recipes from around the world, but encourages them to use their new skills to get involved in their community. Each book exposes children to a different charity and shows them how they can use their new cooking abilities to help others.

Ink Dish S2572 **Dine + Design Expo**

Tug Dinnerware

Introducing a new line of dinnerware designed by Alyson Fox. Alyson Fox makes things from paper, fabric, books, ceramics, thread, wallpaper, office supplies, photographs, old tattered things, new polished things, furniture, and cement. She has degrees in photography, sculpture, and installation art. Her work has enjoyed significant media attention and she has been published in the *New York Times*, *Nylon*, *Domino*, and *Lucky*. This is the first time Alyson has entered the world of tableware. At first sight, Tug could be thought a classic monochrome design with some subtle touches of color. The imagery however takes the dinnerware into a new, curious and beautiful dimension. The dinnerware is made of A quality porcelain, and is dishwasher and microwave safe. Prices range from \$14 to \$25 for individual pieces, \$25 to \$60 for gift sets, and will be available in April of 2010.

Joya Distributing – Laurastar Ironing Systems L11220 **Wired + Well Expo**

Magic i-S6

Lightweight professional iron and ironing board provide a comfortable way to iron in less time. Intuitive automatic steam provides effortless ironing, with a removable 1.3-qt reservoir for permanent ironing without waiting. Iron heats up in five minutes. Board can be adjusted to six heights, is easy to fold and has wheels for easy transportation. Accessories include: two origami-cover quality covers, aqua s-line integrated filter and three refills, softpressing soleplate, coolmat insulating mat, polyfer abrasive mat, rinse-me drain tray, holder s-line cable holder.

Legnoart S4436
Dine + Design Expo

I-Feel

The scent of the universe is by its nature elusive, dynamic and indefinable. The air we breathe can be enhanced by delicate aromas, depending on individual tastes. The technology of I-FEEL has been created to achieve this. Patented SFR (Solid Fragrance Release), based on nanotechnology can use essences, perfumes and fragrances (without the use of solvents) that are spread naturally by simple ventilation. I-FEEL ensures quality, far superior to the traditional process of spraying, heating and evaporation of fragrances in the liquid phase. Thanks to I-FEEL, the scent is circulated through a ventilation based on duration and intensity that ensure a constant supply of perfume for a specified time. The aim is to provide a set of olfactory stimulation geared to reduce stress, increase ability to concentrate, and create a harmonious and relaxing atmosphere. The diffuser can be controlled both manually and using the most sophisticated remote control systems. Top-quality Olfactory Management effects (multiple signals) can thus be obtained, with no need for room air changes from time to time. With the support of the Oikos Dott. Bader and creativity of Paola Carallo and Jacopo Grandis, we are now able to present I FEEL.

Litter Free Lunch S4069
Dine + Design Expo/GOHO

Litter Free Lunch

Litter Free Lunch LLC was created by two moms who were looking for components to reduce waste in their families' packed lunches. What began as a quest to find the right-sized reusable cloth napkin has grown into a mission to encourage everyone to make small changes in their daily lives to reduce and reuse. The eco-friendly products website, www.litterfreelunch.com, offers USA-made reusable cloth napkins, sandwich bags and snack bags. Litter Free Lunch™ napkins in sets of 5 are available in soft, durable 100% organic cotton and 100% conventional cotton. The reusable sandwich and snack bags are created with the same durable cotton as the napkins with an easy-to clean liner and expandable closure. Each Litter Free Lunch™ product has a sewn-in label with a space to write a name. Additional components to a Litter Free Lunch™ include stainless steel water bottles, stainless steel food containers and lunch bags made with fabric created from post-consumer recycled water bottles. Litter Free Lunch™ products are available to consumers, retailers and fund raising organizations. Litter Free Lunch™ products are perfect for lunch packs for school and work, diaper bags, on-the-go activities and for use at home. Litter Free Lunch encourages everyone to replace disposable items such as paper products with reusable cloth napkins and bags, replace plastic beverage bottles with stainless steel bottles. Make a small change and make it a litter free day!

Move Collective S582
Dine + Design Expo

bobble

We all love bottled water. In fact, we are obsessed by the convenience of it, but unfortunately, this doesn't lead to a sustainable future. So what should we do about it? We chose to reinvent bottled water. We've developed bobble: a revolutionary product that takes care of the planet, keeps your body hydrated, your wallet fat and your taste buds satisfied – all while looking good doing it. bobble is a patented filtered water bottle for life on the move. Just fill it with water and bobble will do the rest: hydrate, be beautiful and reduce waste, one sip at a time. Manufactured in the USA and has a small carbon footprint. Certified BPA-free, free of harmful Phthalates and PVC. bobble is made from recycled PET (RPET) and is 100% recyclable. Drink great tasting, healthy water, every day, all day. Refill and reuse bobble over and over and over again.

Nuance International A/S S4436
Dine +Design Expo

Wine Finer Bottle Pourer

A 4-in-1 wine accessory, the Wine Finer is the ultimate decanting experience. It works as a pourer and stopper, and most importantly aerates the wine and strains out any sediment while it pours. In just 30 seconds you can decant a

continued next page

Continued

whole bottle of red wine while pouring it into glasses. The rushing sound of bubbles gives evidence of the excellent aeration process. Unlike other wine aerators, the Wine Finer can be used with only one hand. The non-drip pour spout inserts into the bottle and neatly pours glass after glass without waste or mess. The drip catcher insures that not a drop is spilled; instead the wine runs back into the bottle. It is made of solid silicone so it fits tightly into the bottle. The close-fitting lid keeps remaining wine fresh for later use. Just top the Wine Finer with the stopper and enjoy a glass later.

Wine Opener

These days many fine wines are sold in bottles with screw-caps because a cork is not always the best choice. But even with a screw-cap bottle, you don't have to compromise on serving style. Not if Marcus Vagnby has anything to do with it. Marcus has designed a stylish and practical bottle opener for screw-caps. The opener is made from stainless steel, rubber and ABS plastic. The user simply lowers the Nuance Wine Opener over the bottle cap and releases it easily yet elegantly with a single turn.

Glowing Carafe

This is the perfect accessory for romantic evenings. The built-in LED in the base gives the carafe and its contents a lovely, warm glow, so creating a pleasant ambiance. With its attractive, illuminated appearance, your carafe will automatically become the talk of the table. The carafe can hold 1L of water or rosé wine, and is made from the finest matte glass shaped in elegant round forms. The LED can be removed so the carafe can be cleaned in the dishwasher.

Multi-Carafe

Tired of carafes that can't be put in the dishwasher and ice cubes that are poured out in the first glass? Nuance has solved those problems. The new Multi-Carafe with screw-off base represents a revolution. The carafe, which has an attractive, classic design, can be opened both at the bottom and the top. The opening in the bottom makes it possible to fill the carafe with ice cubes, frozen fruit and other cool and exciting ingredients, making the full carafe a visual feast. The opening in the top is designed so that it holds the ice cubes in place, keeping the carafe cold. If you remove the bottom and top seals, the carafe can easily be cleaned in a dishwasher.

Tide Washing Machine Cleaner

HE washing machines use less water and require the use of an HE specific detergent to avoid over-sudsing. If proper maintenance habits are not adopted, unseen residue and malodor can build up and transfer onto clothing during the wash cycle, leaving laundry smelling unclean. If the washer door remains closed at all times and the machine stays moist, problems can escalate. Tide Washing Machine Cleaner uses a powerful oxygenated bleach system to fight odor-causing residues. Surface active ingredients in Tide Washing Machine Cleaner help to penetrate and lift away residues and deposits from the washer – leaving behind a clean, fresh scent. Tide Washing Machine Cleaner is fast and easy to use. Remove all clothing from the washing bin and add one pouch of Tide Washing Machine Cleaner to the powder detergent dispenser cup. Run a clean out cycle or a long, hot water cycle to help remove excess build-up and odor. In addition to using Tide Washing Machine Cleaner once a month, HE machine owners should always use an HE specific detergent and leave the washer door slightly ajar when not in use to avoid further malodor problems.

Red Vanilla

S4841

Dine + Design Expo

Red Volcano

The Red Volcano is an indoor/outdoor portable fireplace with a tempered glass chimney made by hand. The fuel (sold separately) is an ethanol manufactured from potatoes. This enables the fuel to burn very "Green"—virtually smoke-free and odor-free. The Red Volcano is safe to burn anyplace that sterno-type fuel can be burned. However, the company does not recommend using a sterno-type fuel as the flame burns much hotter and does not produce the same ambience. An igniter and a tool for snuffing the flame are included. The Red Volcano is available in four styles: Iron Nest Silver, Silver Polish, Small Round Glass and Small Square Glass.

Revol USA LLC
Dine + Design Expo

Cook and Play Baker and Lid

This trendy collection meets the requirements and ticks all the boxes for innovation, performance, functionality and efficiency. The handled shapes make for easy stacking and storage and the various shapes make for multiple uses in the same dish. As always, all of our products are thermal-shock resistant, high-impact resistant, oven, microwave, dishwasher and freezer safe. The 2-pc baker has a piece that can be used as a trivet, a serving tray, but most importantly as a lid – 3-in-1!!! The square baker measures 10.25” x 10.25” x 2.5” and is perfect for all your baking needs.

Basalt Steak Plate

This black-body porcelain imitates the look of slate, but has all the cooking benefits that slate does not. It is decorative, but functional for the kitchen and table as it is non-porous, food friendly, thermal-shock resistant, high-impact resistant, oven, microwave, dishwasher and freezer safe. This line comes in several shapes and sizes and has many uses - appetizer, cocktail, amuse-bouches, buffet, steak, fish, salad, cheese, desert, presentation plates, etc. The steak plate measures 13” x 9.5”. It has a circular indent for your sauce or ramekin to sit in and a groove around the perimeter to capture your juices.

Froisses Crumpled Cups

A crumpled plastic cup produced in culinary grade porcelain, who would have thought this would have caused such a stir? In Europe this is the HOT item and it's our goal to bring this phenomenon to the USA; we are doing so with our best selling colors and in our new sophisticated gift box. Coffee machines sales are at an all time high; why not treat yourself to a fun porcelain cup to enjoy your beverage of choice? Although designed with beverage in mind, these creations can be used in many different ways - hot meals, cocktails, dips, vegetables, soup, french fries, desert, oh and of course your tea and coffee!! As always, all of our products are thermal-shock resistant, high-impact resistant, oven, microwave, dishwasher and freezer safe. There are many sizes and colors that make up this fashionable collection, and the 4-pc espresso set comes in bright colors. This collection is both fun and practical.

Kähler Cammeo

Cammeo defines itself as a piece of art with enough space for everyday storage. The series consists of clearly lined, functional containers that are machine-washable. They can be used in many different ways and appear modern and unique. Available in three sizes, each Cammeo comes with six different colored rubber bands to match your season, your mood or just make it uniquely yours.

Kähler Bulbino

Inspired by the botanical world, the Bulbino vase, like an early spring flower, bubbles with life and energy yet transforms into a lively sculpture, blending art and function. It is sold in pairs of one large and one small vase, and is available in white, yellow, green and blue. Bulbino's different sizes and colors invite you to arrange the vases in groups and create small personal works of art.

Magisso Magnetic Sponge

A wet sponge left at the bottom of a sink is the perfect breeding ground for germs and bacteria. Leaving it on top of the sink will make it an eyesore. The Magisso magnetic sponge is the answer to the problem. With its patented magnet system, the stylish Magisso magnetic sponge can rest on the side of your sink, where it will dry and stay out of sight. At the heart of the product is a counter magnet system. It attaches to the side of your sink, inside the kitchen cabinet, where it is held in place with a strong strip of adhesive. The sponge has a small slot in which to place the supplied coin magnet. When you place the Magisso sponge on the side of the sink, it will "find" the counter magnet and stay in place. Available in a starter kit with the counter magnet system, coin magnet and two Magisso sponges or in a sponge refill pack with five sponges.

Magisso Cake Server

Introducing four new plastic cake servers in black, lime, purple and white. Style meets function in this unique object that simplifies the task of cutting and serving a piece of cake in one action. By pressing down on the cake with the cake server, you can cut a perfect piece of cake; by lightly squeezing handle, you can lift the cake and then release it on the plate.

Zebag S4837 **Dine + Design Expo**

Zebag®

Zebag® is a multipurpose bottle bag and is the ultimate designer bag when paying a visit to your favorite wine merchant or for carrying bottles from your own cellar. It is a versatile companion for weekend breaks, boat trips or picnics, and proposes a stylish gift presentation when offering wine to friends. Thanks to the different shapes it may take, ZEBag® is ideal to store and smartly display bottles at home: open at one end, spread flat, hung vertically. It can be used to easily carry up to six different bottles. Zebag® can be rolled together to make a fit, compact carrying case, or unrolled to hang on the wall. It is available in four different colors: black, grey, red, kaki. It can also be customized. Along with ZEBag®, a specially designed hook to hang the bag on the wall is also provided. ZEBag® is patented.
